

NobleSeal® Sheet Membranes

For over 45 years, Noble Company has pioneered the use of sheet membranes in the tile and stone industry. At the heart of all Noble systems is a core layer of Chlorinated Polyethylene (CPE), an inherently flexible elastomeric sheet that will not rot, crack or deteriorate due to microorganisms. Sheet membranes are available for crack isolation, waterproofing, joint bridging, and sound isolation. NobleSeal sheets save time and money. Noble membranes are easy to install and provide quality solutions to prevent costly failures. All of Noble's membranes are made in the U.S.A.

Performance Tested

Ensuring that our products are designed to meet the challenges of industry standards is part of Noble's quality assurance program. NobleSeal products have undergone stringent testing to industry standards including ANSI and ASTM, as well as meeting the code requirements of the UPC and IPC. In addition, Noble Company is integral in the continuous improvement and development of installation guidelines and requirements through participation in organizations such as TCNA, NTCA, TCAA, RPA, ISO, ANSI, MMSA and MIA.

Noble Sheet Membrane Use Guide

Use Guide	Crack Isolation	Water Proofing	Joint Bridging	Sound Reduction	Exterior Decks
Chloraloy®		x			х
NobleSeal® TS	x	x	x

NobleSeal® SIS	X	X	X	X	
NobleDeck™	Х	х	Х		х
Wall Seal TM (PVC membrane for walls only)		X			

Features & Benefits of NobleSeal:

Versatility

- Use over common substrates, even:
 - Primed gypsum underlayments
 - Radiant heating systems
 - Most impervious substrates
 - Many wood subfloors
- Use for new construction or renovation in residential or commercial applications

Durability

- Made from CPE, won't rot or crack
- Guaranteed for the life of the original tile installation
- Excellent resistance to chemicals
- Unaffected by a wide range of temperatures & conditions

Installation

- Uniform thickness ensures quality installations by reducing workmanship variables
- Simple installation process:
 - Spread bond coat, embed sheet, install tile

Crack Protection

- Isolates tile from the substrate to prevent telegraphing substrate defects
- Highest level of protection and Performance:
 - Rated "High Performance" in System Crack Resistance portion of ANSI A118.12
 - Rated "Extra Heavy" by Robinson Floor Test

Waterproofing

- · Impervious: protects against water and vapor transmission
- Suitable for shower and steam room waterproofing

Quick & Easy Installation

2. Embed sheet.

Unlike fluid-applied products, our sheet membranes do not require curing, so work can progress as soon as sheets are installed. Sheets also minimize variables in workmanship. Large sections can be created by seaming sheets together.

Sheet Membranes

Noble Company, Spring Lake, Michigan

About Noble Company

Founded in 1946, the Noble Company has established a reputation of providing quality, innovative products for the plumbing and tile industries. Identifying problems and developing solutions that add value and exceed customer expectations has been the ongoing mission of our company. Noble Company products are available globally through our distribution network.

Instructional Videos

Noble Company offers free online and DVD instructional videos. The videos demonstrate installation techniques of full mortar bed and thin-set methods for showers, as well as an overview of the FreeStyle Linear Drain systems. These helpful videos can be found online at noblecompany.com. DVDs may be ordered through sales@noblecompany.com or from a Noble Company Sales Representative.

Contractor Training Programs

Noble offers contractor training programs focusing on installation methods used with NobleSeal products in commercial and residential applications.

The programs are specifically designed to help tile contractors:

- Avoid costly callbacks
- Improve installation efficiency; optimize time, energy, & money
- Maximize shower sales

These hands-on trainings are being held in various locations throughout the United States and Canada. For more information and to see when a training will be held in your area, please contact us at 1-800-878-5788.

Continuing Education Seminars

Noble Company is an Authorized Provider of Continuing Education for AIA and ASID. We conduct seminars for design and construction professionals. These seminars provide information about cost-effective solutions to problems created by today's fast-paced, cost-driven construction techniques.

The programs offer learning unit credits for AIA Continuing Education and Health, Safety & Welfare (LU/HSW). To register for a seminar or obtain more information, contact your local Noble Company Sales Representative or Noble Company at 800-878-5788 or e-mail: sales@noblecompany.com.

Merchandising & Point-Of-Purchase Materials

As a key supplier to hundreds of distributors and retailers throughout the world, Noble Company provides business partners with integral merchandising and point-of-purchase materials. Shower accessory displays (such as the FreeStyle Linear Drain Displays) and our NobleSeal Sheet Membrane samples and literature are available as sales aids to retailers and distributors.

Noble is a member of the following Organizations & Associations:

Sheet Membranes

TCNA Env. Class COM 1-5 RES 1-5

Chloraloy®

Waterproofing

The original CPE shower pan liner for full mortar bed waterproofing applications.

Features & Benefits

- Easy to install, naturally flexible, will hold a crease
- Saves time no curing
- Maximum waterproof protection with lowest water/vapor transmission rate
- Guaranteed for life of the original tile installation
- 40+ years of proven performance

Testing & Standards

- Meets ASTM D4068
- ASTM E96 Moisture/Vapor Transmission Rate:
- Procedure A: 0.07 perms
- Meets IPC and UPC requirements: IAPMO (File #3046)

Applications

- All wet areas (i.e. steam rooms, showers)
- Residential new construction & remodeling
- Food courts
- Hotels
- Condominiums
- Health clubs
- · Military and university housing
- Healthcare facilities

Dimensions

Nominal Thickness: .040" (1.0mm)

■← Approximate thickness of membrane

Roll Sizes:

4' x 50' = 200 sq. ft., $1.2m \times 15.2m = 18.6m^2$ 5' x 40' = 200 sq. ft., $1.5m \times 12.2m = 18.6m^2$ 6' x 33.3' = 200 sq. ft., $1.8m \times 10.1m = 18.6m^2$

NobleSeal® TS

Waterproofing

Waterproofing and crack isolation for ceramic, stone, and terrazzo tile and other hard surface flooring in thin-bed applications.

Features & Benefits

- Fastest waterproofing system available
- Thin CPE sheet membrane
- Bond with NobleBond EXT for fast cure time
 - Can be bonded with latex modified thin-set
- Low water/vapor transmission rate
- Provides crack isolation

Testing & Standards

Waterproofing:

- Meets ANSI A118.10
- ASTM E96 Moisture/Vapor Transmission Rate
 - Procedure E: .15 perms (high humidity)
- Thin-bed shower waterproofing
 - IAPMO Listing: UPC File No. 4339
 - ICC- ES PMG Listing: PMG -1059

Crack Isolation:

- ASTM C627: Performance Rating: "Extra Heavy"
- ANSI A118.12: System Crack Resistance (Jig Test) Rated "High Performance"

Applications

- All wet areas (i.e. steam rooms, showers)
- Horizontal and vertical surfaces
- Food courts
- Hotels
- Condominiums
- Health clubs
- Military and university housing
- Malls and plazas
- · Healthcare facilities

Dimensions

Nominal Thickness: .030" (0.8mm)

Approximate thickness of membrane

Roll Sizes: $5' \times 100' = 500 \text{ sq. ft.}$

 $1.5 \text{m} \times 30.5 \text{m} = 46.5 \text{m}^2$

NobleSeal® SIS

Sound Reduction

Reduces floor-to-floor impact sound from hard surface flooring. (U.S. Patent No. 6,077,613)

Features & Benefits

- Thin CPE sheet membrane
- Simplifies transitions between different types of flooring
- Eliminates the need to alter door & cabinet heights
- Provides waterproofing and crack isolation

Testing & Standards

Sound Reduction:

- ASTM E492; ASTM E90: IIC = 62; STC = 59
 Tested floor/ceiling assembly: 8" Hollow-core
 concrete substrate & sound rated ceiling.
- ASTM E2179: $\Delta = 12$
- Meets ANSI 118.13

Waterproofing:

- Meets ANSI A118.10
- Thin-bed shower waterproofing
 - IAPMO Listing: UPC File No. 4339
 - ICC- ES PMG Listing: PMG -1059

Crack Isolation:

- ASTM C627: Performance Rating: "Extra Heavy"
 - "Extra Heavy" ANSI A118.12:
- System Crack Resistance (Jig Test)
 Rated "High Performance"

Applications

- · High-rise office buildings
- Condominiums
- Libraries
- Hotels
- Apartment buildings
- Military and university housing
- Educational facilities
- Healthcare facilities

Dimensions

Nominal Thickness: .050" (1.3mm)

■← Approximate thickness of membrane

Roll Sizes: $6' \times 33.3' = 200 \text{ sq. ft.}$

 $1.8m \times 10.2m = 18.6m^2$

TCNA Env. Class

Wall SealTM

Waterproofing

Use for vertical walls in interior

applications including showers.

Features & Benefits

versus liquid membranes

- Thin PVC sheet membrane

reinforcement needed

Testing & Standards

- Procedure A: .22 perms

- Procedure E: .42 perms

Transmission Rate

Meets ANSI A118.10

ASTM E96 - Moisture/Vapor

Superior waterproofing for walls

- Low water/vapor transmission rate

- Minimizes workmanship variables

· Easy to install, saves time & money

- No curing, install tile immediately

- No wet film gauge or fabric

TCNA Env. Class

COM 2-5

RES 2-5

NobleSeal® CIS

Crack Isolation

Protects thin-bed tile from cracking by relieving the stress caused by horizontal movement in the substrate.

Features & Benefits

- Allows tile to bridge cracks and control joints
- Thin CPE sheet membrane
- Helps preserve tile patterns
- Fast and easy to install
- · Also provides waterproofing

Testing & Standards

Crack Isolation:

- ASTM C627: Performance Rating: "Extra Heavy"
- ANSI A118.12: System Crack Resistance (Jig Test) Rated "High Performance"

Waterproofing:

- Meets ANSI A118.10
- Thin-bed shower waterproofing
 - IAPMO Listing: UPC File No. 4339
 - ICC- ES PMG Listing: PMG -1059

Applications

- ApplicationsShopping centers
- Hotels
- High-rise offices
- Airports
- Department stores
- Single & multi-unit housing
- Radiant heating systems

Dimensions

Nominal Thickness: .030" (0.8mm)

Approximate thickness of membrane

Roll Sizes:

2' x 50' = 100 sq. ft., 0.6m x 15.2m = 9.3m² 3' x 50' = 150 sq. ft., 0.9m x 15.2m = 13.9m² 4' x 50' = 200 sq. ft., 1.2m x 15.2m = 18.6m² 6' x 50' = 300 sq. ft., 1.8m x 15.2m = 27.9m²

Noble DeckTM

Exterior Waterproofing

Exterior thin-bed waterproofing and crack protection where ceramic or stone tile is

Features & Benefits

- Bondable CPE sheet membrane for primary waterproofing over occupied spaces
- Provides waterproofing, crack isolation, and joint bridging
- Bond with NobleBond EXT for fast cure time
 - Can be bonded with latex portland cement mortar

Testing & Standards

Waterproofing:

- Meets ANSI A118.10
- Thin-bed shower waterproofing
 - IAPMO Listing: UPC File No. 4339
- ICC- ES PMG Listing: PMG -1059

Crack Isolation:

- ASTM C627: Performance Rating: "Extra Heavy"
- ANSI A118.12: System Crack Resistance (Jig Test) Rated "High Performance"

Applications

- All wet areas (i.e. steam rooms, showers)
- vertical surfaces only
- Hotels
- Condominiums
- · Health clubs
- Military and university housing
- Healthcare facilities

Bonding Agents & Sealants

NobleBond EXT

Sheet Membrane Bonding

Wet-set adhesive for bonding NobleSeal and Noble Deck sheet membranes in interior and exterior applications.

Features & Benefits

- · High strength, water resistant bond
- Fast cure time
- Non-flammable
- Low odor and zero VOCs
- No solvents, ammonia or hazardous chemicals
- Contains MicroSeptTM antimicrobial protection, which inhibits growth of mildew & bacteria

Applications

- Interior & Exterior Applications
 - Including wet areas (not steam rooms)
 - Horizontal & vertical surfaces
- Use over:
 - Cured concrete
 - Cementitious backer boards
 - Suitable plywoods
 - Terrazzo substrates
 - Some impervious substrates
- Use with Radiant Heating Systems

Spread Rate *

Approximately 100 sq. ft./gallon

Application Method

Spread with a trowel.

Size(s)

1 or 4 gallon pails.

 $^{\text{\tiny{TM}}}$ MicroSept is a Trademark of XL Brands, Calhoun, GA.

NobleBond 21

Sheet Membrane Bonding

Pressure sensitive, ready-to-use, latex-based adhesive. Use to bond NobleSeal sheet membranes for crack isolation/joint bridging and sound control on floors. Not suitable for vertical, exterior or wet area applications.

Features & Benefits

- No curing
- Low odor and zero VOCs
- Non-flammable
- · Latex based, water clean-up

Applications

- Interior Applications
 - Horizontal surfaces only
- Use over:
 - Cured concrete
 - Primed gypsum underlayments
 - Suitable plywoods
 - Terrazzo substrates
 - Some impervious substrates
- Use with Radiant Heating Systems

Spread Rate *

150-175 sq.ft./gal.

Application Method

Spread with trowel.

Size(s)

1 or 4 gallon pails.

*Spread rates may be affected by substrate condition and porosity.

NobleSealant 150

Sheet Membrane Seaming

Polymeric sealant used to seam sheets together, seal penetrations, drains, edges, or corners.

Features & Benefits

- Times for curing can vary from 30 minutes to 24 hours depending on a variety of conditions (e.g. temperature, humidity, etc.)
- Unaffected by exposure to water after it has aired
- Adheres to wood, metal, concrete, glass, plastic & rubber
- Broad temperature use range
- Excellent resistance to ozone, sunlight & weathering

Applications

- Seam membrane sheets together
- Seal penetrations of the membrane
- As a concealed terminal edge & flashing sealant
- Adhere preformed corners to the waterproofing membrane, studs, etc.
- Spot bond sheet to vertical or horizontal surfaces

Spread Rate

3/16" bead - approximately 40 lin. ft.

Application Method

Apply with a heavy-duty commercial caulking gun.

Size(s)

10.3 oz. tubes.

NobleWeld

Sheet Membrane Seaming

Solvent welding system for seaming sheets of Chloraloy and NobleSeal TS.

Features & Benefits

- Chemically fuses bare CPE sheets of NobleSeal TS or Chloraloy
- Provides a high-strength seam

Applications

• Seam bare CPE membrane sheets

Spread Rate

1 pint seams 50 lin. ft.

Application Method

Applicator included in product.

Size(s)

 ${\bf 1}$ pint or ${\bf 1}$ quart containers.

Clamping Ring Drains

High Quality Shower Drains

Three-part shower drains that provide a mechanical attachment of the waterproofing membrane to ensure waterproof integrity.

Features & Benefits

- · Meet plumbing code requirements
- Mechanical attachment provides waterproofing integrity
- Weep slots and holes on both sides of collar maximize drainage
- Brass inserts in collar and tailpiece prevent damage from tightening

Shapes & Finishes

Thin-Bed Shower Drains

Top Mounted Clamping Collar

Thin-Bed drain with stainless steel clamping collar that can be tied directly into a sheet membrane waterproofing system.

Features & Benefits

- Clamping collar is flush with strainer
 - Designed for surface applied, bonded waterproofing membranes
- Water flows directly into the drain, no weep holes
- · Provides a watertight connection
- Strainer adjusts (from flush to ³/₄") to accommodate various thicknesses of tile
- Low profile Ideal for low profile, barrier- free showers (ADA)

FreeStyle Linear Drains™

Linear Drains

FreeStyle Linear Drain is the only linear drain system with a clamping collar which assures a watertight seal with sheet membrane waterproofing. High GPM capacity, Ideal for barrier-free showers.

Features & Benefits

- Simple installation: fasten to floor, attach waste pipe, secure membrane to drain with clamping collar
- One-piece ABS or PVC base (no seams)
 - flat bottom for surface or recess mounting to substrate
 - Internal pre-strainer system
- Custom sizes and finishes are available (contact Noble Company for further info.)

Testing & Standards

- IAPMO Listing: UPC File No. 7249
- ICC- ES PMG Listing: PMG -1065

Strainer Styles & Finishes

Full Mortar Bed Adapter Kits

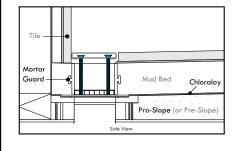

for FreeStyle Linear Drains

Allows for the use of a traditional shower pan liner (like Chloraloy®) to waterproof FreeStyle Linear Drains.

Features & Benefits

- Kit includes: hardware, brackets, and Mortar Guard
- Mortar Guard protects mud bed from erosion due to chemicals and debris
- Available for all sizes of FreeStyle Linear Drains
- Separate Kits available for use with Tile Top Strainers

CAD Reference

Linear Drain Connectors

Drain to Drain Connection

Connects any number or size FreeStyle strainers to give the impression of a continuous drain system. Three different Connectors allow any configuration of drains to be connected.

Features & Benefits

- · Allows for mixing of drain lengths
- Ideal for large projects (interior or exterior) where multiple drains will be installed
- Brushed stainless steel finish

Noble Niches

Shower Recesses

Preformed, waterproof niches in a wide variety of sizes and styles for tile showers. Made from extruded polystyrene (XPS) and coated with acrylic polymer finish that is ready to tile.

Features & Benefits

- Installs in minutes
- Waterproof & ready-to-tile
- Mounts flush in 2" x 4" stud walls with 1/2" backerboard
- · Durable and lightweight
- · Custom sizes and shapes are available (contact Noble Company for further info.)

Noble Shelf Bench

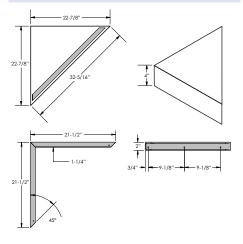

Shower Bench

Provides a ready-to-tile shelf bench. Seat is made from extruded polystyrene (XPS), coated with acrylic polymer finish for thinset installation of ceramic or stone tile and supported with a high quality aluminum frame.

Features & Benefits

- Quick & easy installation
- No mortar to mix & cure
- Waterproof & ready-to-tile
- For maximum productivity, tile can be installed off-site
- Durable, 400 lb. load capacity
- Lightweight

Sizes & Dimensions

Shelf Bench (#414) and Shelf Bench 90° Support Frame

Shower Accessories

Noble Solid Curbs & Curb Overlays

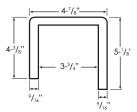

Preformed Curbs

Creates a tileable surface over the dam. Made from expanded polystyrene (EPS) and coated with acrylic polymer finish for thin-set installation of ceramic or stone tile.

Features & Benefits

- · Easy to install
- Eliminates penetrations of the shower pan liner inside or on top of the dam

ProBase®

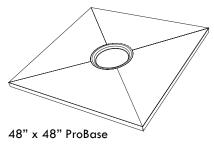

Preformed Shower Pan

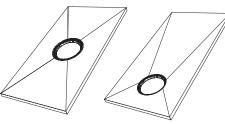

One-piece, waterproof, sloped shower base that is ready-to-tile. Made from high strength polypropylene honeycomb with a Noble Sheet Membrane laminated to the top side. Cut to size with a standard utility knife. Install in minutes.

Features & Benefits

- Made from high strength polypropylene honeycomb with a Noble Sheet Membrane laminated to the top side
- Extra strong with a high point load capacity
- Compatible with standard damping ring drains and allows for up to 2" of adjustment in drain position
- Packaged with all the necessary component products to ensure a watertight installation
- Available in custom sizes (min. quantity of 50)
- ICC-ES PMG Listing: PMG-1059

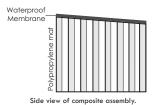

Sizes & Dimensions

32" x 60" ProBase with center drain

32" x 60" ProBase with end drain

*Available by Special Order only.

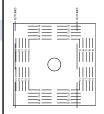

Code Required Preslope

Patented preformed composite made from expanded polystyrene (EPS) with a reinforced cutting template that creates a code required slope under the waterproofing membrane in a full mortar bed application.

Features & Benefits

- · Slope allows moisture to drain
- Helps eliminate a main cause of mildew and fungus
- · Saves time light and easy to cut
- Durable: Rated at 500 lbs./sq. ft.
- · Easy to cut and install

Sizes & Dimensions

40" x 40" PRO-SLOPE Kit

30" X 60" Tapered Extension

30" X 60" Flat Extension

Positive Weep ProtectorTM

Drainage Solution

Keeps weepholes in clamping ring open to facilitate drainage.

Features & Benefits

- Highly effective and affordable
- Helps prevent mortar bed saturation
- Easy to install, permanent solution
- Included in each PRO-SLOPE Kit, also available as an individual accessory

Shower Accessories

NobleFlex®

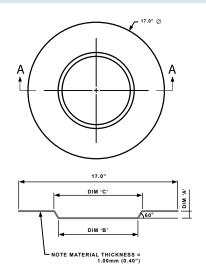

Drain Flashing

Provides smooth transition of thin-set waterproofing sheet membrane to a clamping ring drain.

Features & Benefits

- Ideal for thin-set waterproofing membranes (ANSI A118.10) or full mortar bed membranes when the drain is set too low
- Thin-bed shower waterproofing
 IAPMO Listing: UPC File No. 4339
 - ICC- ES PMG Listing: PMG -1059
- Alternative to "integrated bonding flange" drains
- · Easy to install
