32" x 60"  
Kit Includes

Patents Pending

## Single-Slope Shower Base

Installs quickly and easily with modified thin-set to provide the code-required slope to drain in conjunction with Noble Company's FreeStyle Linear Drain™. Kit includes 32" x 60" base with off-set shims, 1-3' x 44' roll ValueSeal® waterproofing sheet membrane, 24" PVC FreeStyle Linear Drain with slotted strainer, 2-30" Solid Curbs, 4 Thin-Line Inside Corners, 4 Thin-Line Outside Corners, 1 Thin-Line Mixing Valve Collar, 1 Thin-Line Pipe Collar, and 1 tube NobleSealant.

### BENEFITS

- Single-slope to drain
- Superior impact resistance
- Sloped honeycomb and foam composite base
- Noble waterproofing sheet membrane bonds directly to base
- Two-piece base construction with low profile
- Allows for ADA-compliant configurations
- Off-set or flush-to-wall configuration
- Ideal integration with FreeStyle Linear Drain™
- Shims included to accommodate off-set drains
- Base is easy to cut to accommodate various shower installations
- Install with NobleBond EXT or modified thin-set
- No substrate modification required
- Customizable for large projects
- **64" x 64" base-only option available**
