

WHAT EVERY ARCHITECT AND SPECIFIER NEEDS TO KNOW...

ABOUT WATERPROOFING, CRACK ISOLATION, AND PERMEATION IN DIVISION 9 APPLICATIONS

CES HSW COURSES

WHAT YOU WILL LEARN

These 1-hour CES HSW approved courses focus on installation methods and interior waterproofing systems that comply with industry guidelines and prevent failures. Examine moisture/vapor transmission and crack isolation, as well as ancillary design elements that contribute to the success of your waterproofing detail. The real-world examples presented are timely, practical, and enable you to effectively implement the knowledge gained.

Dean's hands-on style of partnering, creative experience, and perspective on various Division 9 design issues make him a vital resource to any conversation regarding ceramic tile and natural stone.

ABOUT THE PRESENTER

Dean Moilanen

*CSI, CTEF, RCI, AIA Las Vegas Allied Member, NTCA Ambassador
Director of Architectural Services, Noble Company*

Dean is a Division 9 waterproofing, crack isolation, and permeation specialist who advises on some of the most demanding and prestigious projects in the USA. As a 30-year veteran of the tile industry, Dean's relationships with architects, builders, and owners allow him access to some of the most challenging and compelling design issues in the industry. Dean's extensive career on job sites gives him a real-world perspective as he has seen first-hand success and failure relating to product selection, installation issues, and sequencing challenges.
