

Base Height Change FreeStyle Linear Drain™

Product Bulletin

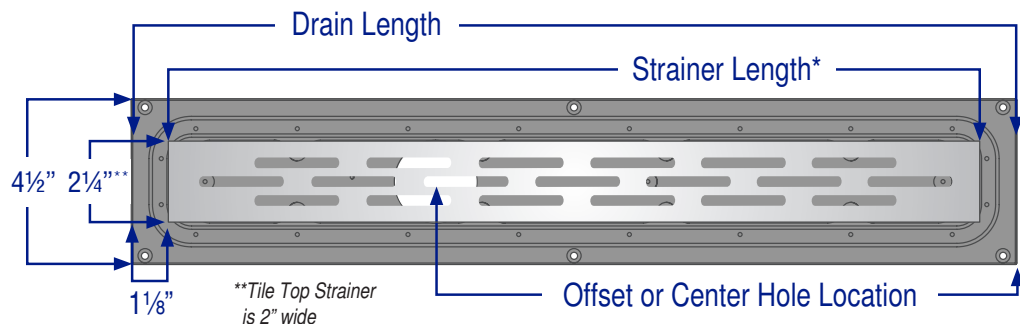

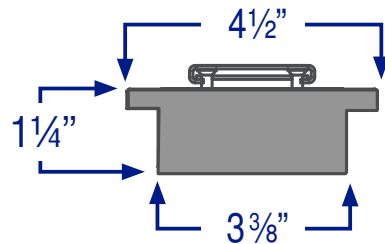

www.noblecompany.com

Effective **February 1, 2021**, Noble Company will make a running change to the drain base height of its *FreeStyle Linear Drain*.

Currently, the height of the drain base ranges from 1 1/4" high for a 24" drain, to 1 5/8" high for a 60" drain. **Going forward, all drain bases will have a height of 1 1/4"**.

This change will provide for consistency across all drains and the ability to standardize on floor heights when using different drain lengths, all while maintaining an internal slope to drain to rid the system of waste water.

The drain base height dimension is now 1 1/4" on all drain lengths of FreeStyle Linear Drains.
