Converting Tubs to Custom Tiled Showers

Grand Haven, MI – Pro-Slope™ makes converting a tub to a custom tile shower easier. Pro-Slope is made from expanded polystyrene (EPS) and sloped in all directions to a drain. The slope is required by plumbing codes. Pro-Slope can replace traditional pre slopes made from mortar. It is light, easy to install, saves installation time and ensures a proper slope. Pro-Slope eliminates mixing and screeding mortar,

Noble Company has added a tub replacement sized Pro-Slope. It is 40" wide and 80" long and be trimmed to fit most tubs with drains at either end. The Tub Replacement Kit includes the pre sloped EPS and a Positive Weep Protector, a patented device that keeps weep holes clear.

Noble Company has produced Pro-Slope for about 15 years and thousands have been installed. Save time and ensure quality with proven products from Noble Company. For additional information about all Noble products, visit www.noblecompany.com or call 800 878 5788.

###

Founded in 1946, the Noble Company has established a reputation of providing quality, innovative products for the plumbing and tile industries. Identifying problems and developing solutions that add value and exceed customer expectations has been the ongoing mission of our company. Noble Company products are available globally through our distribution network.

For over 40 years, Noble Company has pioneered the use of sheet membranes in the tile and stone industry. At the heart of all Noble systems is a core layer of Chlorinated Polyethylene (CPE), an inherently flexible elastomeric sheet that will not rot, crack or deteriorate due to microorganisms. Sheet membranes are available for crack isolation, waterproofing, joint bridging, and sound isolation. NobleSeal sheets save time and money. Noble membranes are easy to install and provide quality solutions to prevent costly failures. All of Noble's membranes are made in the U.S.A.
